

OCUMEND™

Easy to use Gel Pads

Available only in Surgical Offices for Eyelid Procedures

What Is OcuMend?

- First-of-its-kind topical gel pad.
- Designed to reduce bruising, swelling and pain associated with blepharoplasty procedures.
- The strongest topical arnica-based product on the market.
- An elegant peel-and-place gel pad.
- Comfortable cooling sensation for the patient.

How Does OcuMend Work?

- Designed to reduce post-operative bruising, swelling and pain.
- A unique combination of Arnica and Ledum.
- Proprietary delivery method.
- Safe, all natural ingredients.

What Sets OcuMend Apart?

- Potent synergy of active ingredients indicated for blepharoplasty procedures.
- 50x stronger than any other Arnica product.
- Convenient and easy to use gel pads.
- Available only in surgical offices.
- Beta tested by elite Oculofacial Plastic and Facial Plastic surgeons nationwide.

OcuMend

OcuMend is based on patent pending technology developed and produced with a leading pharmaceutical gel manufacturer. OcuMend is regulated by the FDA as an OTC topical drug.
