

Post-Injection Procedure

IMPORTANT:

- 4 Pads Per Patient (2 Sleeves).
- 1 Place one pad on each side of the face.
DO NOT CUT UP PADS.
- 2 Apply pads immediately after injections
for 15 minutes to 6 hours.
- 3 Second set of pads should be applied overnight.

GEL PADS NO LONGER EFFECTIVE AFTER 6 HOURS

- Clean face.
- Pads should be applied over or as close as possible to the injection sites.
- Pads may be removed after 15 minutes and placed in plastic bag.

Do not Freeze
